

CLAIM

I, Linda L. Russo, claim the Sleeper Tent as my invention. It is a tent with a built-in self-inflatable mattress, comes in varying dimensions from a one-sleeper tent, two-sleeper tent, four-sleeper tent, six-sleeper tent and ten-sleeper tent. It is for the purpose of camping, fishing, hiking, climbing and outdoor recreation, and alleviates the need of carrying separate bulky mattresses or pads when sleeping outdoors.
